PETITION TO EXPUNGE ASSIGNMENT RECORD

Applicant submits herewith by the Electronic Filing System (EFS) a Petition to Expunge, pursuant to M.P.E.P § 323.01(d), the assignment record for U.S. Patent Application No. 10/580,947, recorded on February 4, 2010, under Reel/Frame 023897/0553. The assignment documentation was submitted with erroneous and confidential information.

The erroneous information enumerated that the submitted documentation provided evidence of chain of title to KIP Biotech LLC. However, the submitted documentation does not provide a record of completed chain of title for the above-referenced patent application. Furthermore, the submitted documentation contains confidential material that was unintentionally submitted and has not been otherwise made public.

The normal corrective procedures set forth in MPEP §323.01(a) through §323.01(c) will not provide the applicant with adequate relief. The current assignment record enumerates an inaccurate chain of title that may cause confusion in the marketplace. Removal of the improper assignment documentation is the only proper way to rectify the record.

The integrity of the assignment record will not be affected by the granting of this petition. Specifically, the true chain of title of U.S. Patent Application 10/580,947 should not be considered altered by the incorrect assignment documentation. Therefore, the granting of this petition and the subsequent removal of the incorrect assignment documentation inherently improves the integrity of the assignment record by providing clear and accurate notice to all who

CERTIFICATE OF MAILING BY EFS-WEB FILING

I hereby certify that this paper was filed with the Patent and Trademark Office using the EFS-WEB system on this date: February 22, 2010.
